NAMA : M. KHOIRUL UMAM
HIM : AII.2022.14665
KELAS : AII. AII7
PRODI : TEKHIK INFORMATIKA

TUGAS PERBAIKAH
3.) Notasi Algoritma deret dan flowchart !

o) NOTASI ALGORITMA :

Judul : Pemrograman deret angka ganjil

Kamus : x = integer + 20
IS = x ← 20
FS = x ← 35

Algoritma :
Repeat until (x <= 35)
If (x mod 2 == 1) then
output (x)
x ++ ;

endfor

o) Flowchart

A.) Notasi algoritma dan flowchart faktorial!
   o> Notasi Algoritma :

Judul : menghitung nilai faktorial
Kamus : i, x, hasil = integer IS = x = integer hasil ← 1 FS = hasil ← hasil * i
Algoritma : input ← x hasil ← hasil * i i -- ; Repeat until i >= 1 Output ← hasil end for

   o> Flowchart :

```
                    ( Start )
                        ↓
                   int x ;
                   int hasil = 1 ;
                        ↓
          cout << "nilai faktorial" << endl;
                   cin >> x ;
                        ↓
                   int i = x ;
          →        hasil = hasil * i ;
          │            i -- ;
          │              ↓
          │          < i >= 1 ; >
          │              ↓
          │         cout << hasil ;
          │              ↓
                      ( End )
```
